FROM OUR EDITOR

Dear Stakeholders

We spent the month of March intensively, on the one hand, with the YOKAK Institution Internal Evaluation Report studies, which we prepared with your contribution, and the collection and reporting processes of the data uploaded to the YOK-YOKAK joint platform, and on the other hand, with the student-centered training, midterm exams and activities of our students. Our university continues to work in line with its strategic plan goals in a fast and exciting way. One of the events that made us most proud in March was the success of our students, who were entitled to be supported by TUBITAK. We would like to take this opportunity to congratulate both our students and their advisors.

Let's continue our informative article on YOKAK standards with **Management Systems**, the third sub-heading of the **Leadership Governance and Quality** section. Management Systems encompass Information Management Systems, Human Resources Management, Financial Management, and Process Management.

Information Management System: In line with the digitalization processes of our university, our Information Technologies and Security Department produces many projects. A data platform on sustainability has been created. In May, works for the establishment of a web-based data entry platform for our Department of Strategy and Quality Assurance is about to be completed. Thus, we will have an integrated information management system and more strong process management. We have an infrastructure to protect personal data and information confidentiality, and regular checks for privacy are going on.

Human Resources Management: We have defined rules and processes for human resources management at our university. These processes are transparent, accessible, and known by everyone in the organization. Education and merit are the primary criteria, and increasing competencies is the main goal. Various trainings are provided in line with achieving our goals.

We have surveys and opinion suggestion forms developed to determine and monitor employee (academic-administrative) satisfaction, complaints, and suggestions, and used actively. Suggestions and survey results are reviewed, and improvements are implemented when necessary. Most recently, a survey was conducted in March to obtain the opinions and suggestions of our academic and administrative staff. We will share the results with you when they are analyzed.

Financial Management: At the university, basic income and expense items are defined and monitored. Our processes are carried out transparently and by sharing with relevant institutions. Planning, utilization, and monitoring practices of financial resources are managed in line with the strategic plan of our institution. For this purpose, a field showing the relationship between the requests and the strategic plan was set up on the budget entry screen, and approvals were made accordingly.

Process Management: Processes and sub-processes (including distance education) for all activities are defined. Those responsible for the processes are specified and internalized by the whole institution. We have stakeholder participation in all our active processes, including our administrative processes. Nonconformities in our processes are evaluated through self-assessments, external assessments, stakeholder opinions and suggestions, etc. Revisions can be made when necessary.

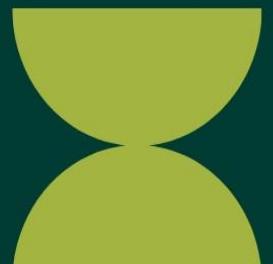

In our next article, we will continue with the fourth topic of the Leadership Quality and Governance section, stakeholder engagement.

We wish you a pleasant reading.

Özgül Özkoc

STRATEGY DEVELOPMENT AND
QUALITY ASSURANCE MANAGER

FROM OUR GUEST AUTHOR

Quality and accreditation are elements that give a university a competitive advantage and strengthen the resilience of its institutional structure. It is clear that a university that is auditable, where ethical rules and quality approaches are internalized will stand out as a reputable institution. We are witnessing this directly in terms of the measurability of quality in education and training processes and institutional structure with the undergraduate program accreditations that have become widespread today.

In addition to education and training and institutional structure, this issue is also important in research. Data collection and analysis in accordance with standards and objective evaluation of the results are among the basic elements. In institutions where quality assurance and culture are established, we see that academic reputation is strong and more valuable contributions are made to both science and society. For this reason, quality assurance should also be prioritized in research and development processes at universities.

As Altınbaş University, we participated in a major event emphasizing the importance of quality assurance and accreditation, the 2024 YOKAK International Quality Assurance and Accreditation Conference on 25-26 April 2024. The conference, which took place at Ankara Hacı Bayram Veli University, was attended by the President of YOK, the president of YOKAK, representatives at the level of rectors, vice rectors and deans of universities, and representatives of international accreditation and quality organizations. During the conference, current scientific approaches and good practice examples on accreditation, quality assurance, accurate collection and evaluation of data in academia were discussed. In his speech, YOKAK President stated that 35% of our universities have YOKAK institutional accreditation and that they want this number to increase. As Altınbaş University, we were also happy to receive our institutional accreditation certificate directly from the presidents of YOK and YOKAK.

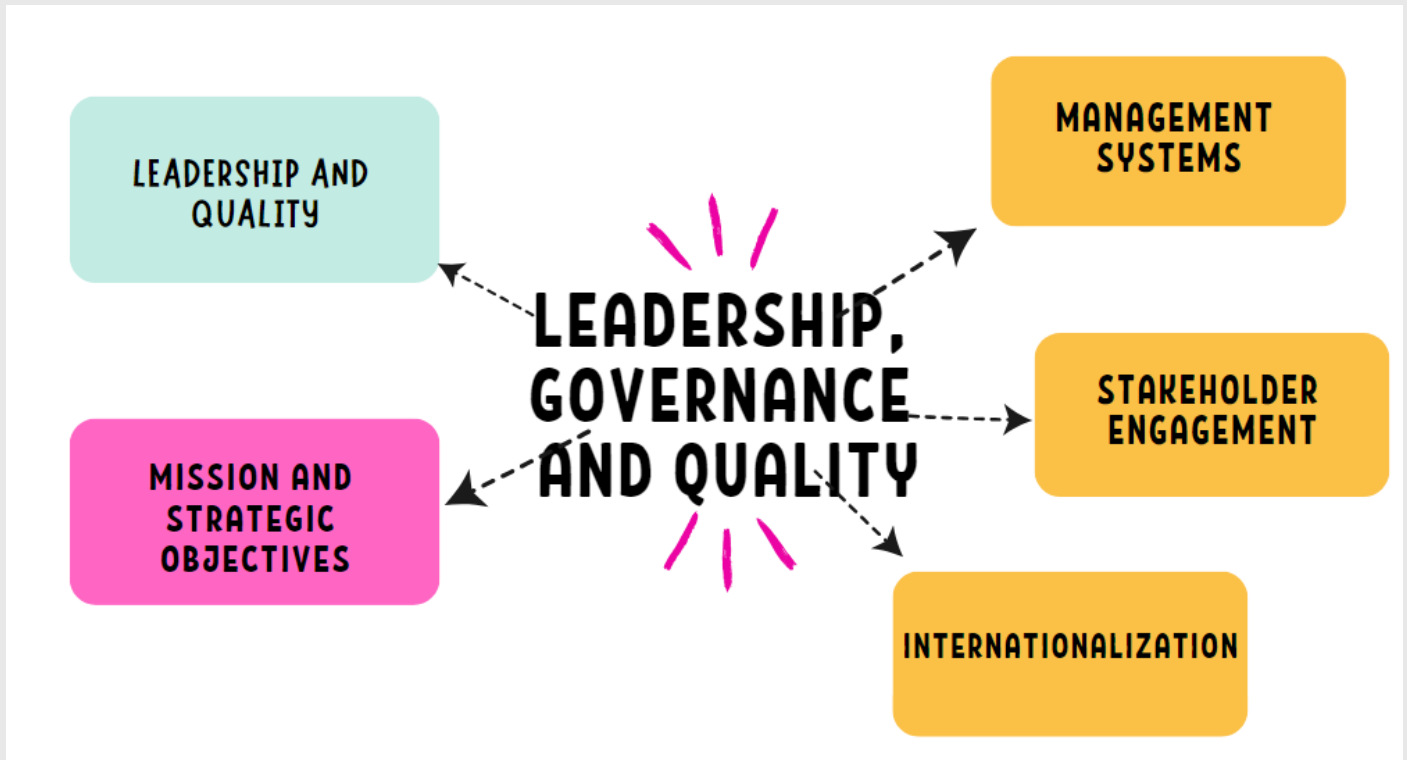

We would like to thank our Board of Trustees, Rectorate, academic units, administrative units and our students who contributed.

I would like to thank Asst. Prof. Özgül Özkoç for inviting me to this issue of Hashtag Quality Bulletin. Asst. Prof. Özgül Özkoç and her team for inviting me to this issue of Hashtag Quality Bulletin and I wish them continued success.

Hakan Kaygusuz

Our Mission

To be a solution-oriented university that updates itself in line with the needs of the world and Turkey, has an innovative, application-oriented and learner-oriented approach, prioritizes innovation, provides free research opportunities and environment, and makes original contributions with a sense of social responsibility.

Our Vision

To be a university that makes a difference in the professional field with its graduates and adds value to universal science.

Faculty of Engineering and Architecture

The 12th and 13th Department Heads Meeting for the Spring Semester 2023-2024 was held within the Faculty of Engineering and Architecture.

#LEADERSHIP, GOVERNANCE AND QUALITY

Internationalization

#Faculty of Pharmacy

Gaye Hafez, Head of the Department of Dr. Gaye Hafez, Head of the Department of Pharmacology at the Faculty of

Pharmacy, paid a one-month visit to the University Medical Center Groningen (UMCG) in the Netherlands in April 2023 as part of a project aiming to apply digital health technologies to improve patient adherence to medication. Within this framework, a pool of digital health products used in various European countries was created. Albert Health from Turkey also took part in this pool with its application called "Albert", which includes a voice reminder system. Gaye Hafez, in collaboration with Albert Health, prepared a blog for the project website following the meetings held throughout March. This collaboration was considered an important step towards achieving the project's goals and increasing adherence to medication.

#LEADERSHIP, GOVERNANCE AND QUALITY

Internationalization

#Faculty of Business

Our faculty hosted Dr. Danny Von Nordheim and Robert Schaefgelen,

representatives from the University of Applied Sciences Jena. Discussions were held regarding faculty and staff exchanges, student ERASMUS internship collaborations, initiatives under the exchange program, and plans for summer school activities

in the coming years

#LEADERSHIP, GOVERNANCE AND QUALITY

Internationalization

Faculty of Engineering and Architecture

We hosted Emmanuel Merchan, Dean of the Faculty of Engineering and Anželika Smagina, Head of International Relations from Latvia Transport and Telecommunication Institute (TSI). Our Dean

Prof. Dr. Galip Cansever, Associate Dean Prof. Dr. Yasa Ekşioğlu Özok, Prof. Dr. Yasa Ekşioğlu Özok, Assoc. Prof. Hakan Kaygusuz and Uzem Manager Özge Deniz Dayioğlu represented our faculty, while Erasmus and Exchange Programs Coordinator Sündüs Aybala Işık and Foreign Relations Assistant Specialist Zehra Zülal Ahmedi also accompanied the meeting. Possible international collaborations were discussed.

"Within the scope of the Basic Design I course coded ARCH101 in the Department of Architecture, course instructor Assist. Assist. Yiğit Çetin and the students had the opportunity to conduct material research in Karaköy with the technical trip organized.

Improvement of Instructor Teaching Competence

#FacultyOfBusiness

In the last session of Researcher's Diary, which is regularly organized by our faculty, Assoc. Murat Bolelli made the presentation "Dark Triad and Utilitarian Choices".

EDUCATION AND TRAINING

Events Hosted by our University

#Faculty of Business

The event, coordinated by the New Attempts Initiative Platform Association (YAPDER) took place at Altınbaş University Gayrettepe Campus. March 5, 2024, Tuesday. Assoc. Prof. Dr. Dicle Yurdakul participated as a speaker in the "Productive Artificial Intelligence Summit" event.

Social, Cultural and Sporting Activities

DepartmentOfLibraryAndDocumentation

Altınbaş University celebrated the 60th Library Week with an interview and book signing with author Ayşe Kulin. Ayşe Kulin signed her books after the interview with the

participation of many students and academicians. Kulin took photos with her fans and said, "Read books to open different windows of life and become a better person."

EDUCATION AND TRAINING

Social, Cultural and Sporting Activities

#LibraryAndDocumentation

As part of the 60th Library Week, we hosted one of the first graduates of our university, Pharmacist/Influencer Ruşa Sarışın as a speaker in the interview titled "The Contribution of Social Media to the Process of Information Acquisition and Personal Development".

We were delighted to host Ruşa Sarışın, who talked about her activities that contributed to her in her student life and shared her advice.

EDUCATION AND TRAINING

Social, Cultural and Sporting Activities

#DeanOfStudent

The hackathon competition aims to challenge university students with a grueling 24-hour challenge to develop a project during this time. In this challenging

challenge, it was expected that the projects would be related to accessible living by the valuable jury committee, thus raising awareness among students about the difficulties faced by disabled individuals in society and enabling them to develop new projects. 45 students participated in the event as competitors.

As part of the International Day for the Elimination of Racial Discrimination on March 21st, a screening of the film "To Kill a Mockingbird" took place. 50 students participated in this event.

EDUCATION AND TRAINING

Social Responsibility Project-Student

#DeanOfStudent

We came together at the Let's Cook Together event, where we traveled through various cuisines of the world. We cooked, ate and of course, washed the dishes together. We ended another event with laughter

with a menu consisting of Stuffed Leaves, Falafel and Beetroot Hummus. 4 international and 4 Turkish students participated in our event.

EDUCATION AND TRAINING

Social, Cultural and Sporting Activities

#CentralResearchLaboratory

March 14th Medical Day Commemoration event was organized by the Central Research Laboratory.

#EVATeam

EVA TEAM organized an iftar with the participation of our project advisors and teammates. After the iftar, graduate teammates talked about their experiences and team captains talked about the status of their projects.

EDUCATION AND TRAINING

End of Term Work Exhibition

#Faculty of Engineering and Architecture

Between March 6-21, in the foyer of Fatma Altınbaş Conference Hall, the architectural works produced by the students of the Department of Architecture in the architectural design courses of the 2023-24 Fall semester were exhibited as part of the 100th Year Architecture Department Exhibition.

The book "Women's Facets of Labor", specially prepared for the 100th anniversary of the Republic, was published by Altınbaş Publications under the editorship of Assoc. Prof. Dr. Gülçin Taşkiran.

This book, which tries to reveal the outlook of women's labor in Turkey in the 100th anniversary of the Republic, is a study written with the aim of understanding the current

situation in women's labor, addressing the problems and providing policy recommendations, and focusing on gender inequality.

Social Responsibility Project

#Department of Research

On March 1, the candidate selection and interview processes of our project, which is supported by Istanbul Development Agency (ISTKA) within the scope of Talent Istanbul call, were completed with the

participation of our Research Dean Assoc. Prof. Hakan Kaygusuz at Bağcılar Municipality. In the project, 120 young people between the ages of 18-35 in Istanbul will be given applied software and personal development training. Candidates who successfully complete the training will be provided with internship and job opportunities in cooperation with Yıldız Technopark.

Scientific Seminar

#FacultyofPharmacy

Cognitive impairment currently refers to impairment in attention, verbal and non-verbal learning, short-term and working memory, visual and auditory processing,

problem solving, processing speed and motor functions. Chronic kidney disease (CKD) stands out as a risk factor for the development of these cognitive impairments. Research in this field has gained momentum in recent years.

Gaye Hafez, Head of the Department of Pharmacology, Faculty of Pharmacy, gave a seminar titled "Cognitive Impairment due to Chronic Kidney Disease" upon the invitation of Ankara University Stem Cell Institute. On March 29, 2024, researchers and PhD students from different disciplines attended this event in Ankara. This seminar was an important opportunity to discuss possible collaborations and projects.

The "Preparing for My New Job Program," organized by "Kodluyoruz" and sponsored by Microsoft, was held in Istanbul for the first time in collaboration with our university. The program aimed

to equip students with the necessary competencies for finding a job/internship through workshops that provided both online and physical participation. Supported by experienced professionals in the field and reinforced with practical activities, the program continued with "Role Model and Interview Simulation" activities. 250 students participated in the program.

The talk titled "Equality Has No Gender" organized by Assoc. Prof. Dr. Banu Kavaklı and Asst. Prof. Berna Ekal organized a talk titled "Equality Has No Gender" with TOKAMER on March 27th.

#DeanOfStudent

On March 21, for Down Syndrome Awareness Day, we informed our students about Down Syndrome as

Psychological Support Unit. In order to draw attention to chromosomal differences, we wore colorful and different socks together with our students.

#SOCIAL CONTRIBUTION

Activities for Disadvantaged Groups

#DeanOfStudent

As the Psychological Support Unit, we continued our psychological support processes intensively with our students, administrative, and academic staff on

all three of our campuses.

During this period, we conducted our Awareness Activities under the Engelsiz Altınbaş Unit. Together with our students, we visited the Dialogue in the Dark Museum. The Dialogue in the Dark Museum is an activity aimed at completing a course guided by a visually impaired individual in a pitch-black environment to understand the situation visually impaired individuals experience. It was an incredible experience for both our students and our psychologists. We recommend it to everyone if you want to witness the process visually impaired individuals go through for a few hours. This event hold at 20 March with 7 participants.
