FROM OUR EDITOR

Dear Stakeholders

We had a month of May in which we came towards the end of the academic year on the one hand, and on the other hand, we tried to create beautiful memories of university life in the minds of our students with events and festivals. We would like to thank our units that organised these events and sent them to our e-bulletin. On behalf of all stakeholders, I would also like to thank the Event Coordinator **Aylin Müge Barutçu** and **her team**, who had as much effort and role as the organising units in the smooth realisation of the events.

In this month's article, we will talk about Internationalisation, which is the fifth and last section in the Leadership, Quality and Governance heading of YÖKAK Standards. **Internationalisation** at our university is carried out in cooperation with the Department of Alumni Relations and Internationalisation (MIUDB) and the Department of International Office. The Internationalisation Policy of our university has been announced on our website. <https://kalite.altinbas.edu.tr/uluslararasilasma/> Internationalisation targets are determined by MIUDB and submitted to the Internationalisation Commission and target realisations are monitored by this commission. The Commission is chaired by Our Rector chairs the commission.

Resources (financial, physical, manpower) for internationalisation activities at our university have been identified and shared with stakeholders. Erasmus processes are carried out in a transparent and fair manner and all practices are recorded.

In our Strategic Plan, there are key performance indicators for internationalisation processes, which are periodically monitored and the results are shared with all stakeholders. Improvement is planned when necessary and included in the self-assessment process.

The fact that 49% of the students at our university are international students, free foreign language courses offered to administrative staff, a large number of participation in Erasmus staff and student mobility, programmes for the cultural fusion of international students and Turkish students, activities such as International Day, which we held this month, can be considered as a few signs of the importance our institution attaches to internationalisation.

Next month, we will start the second title of YÖKAK standards, Education and Training standards.

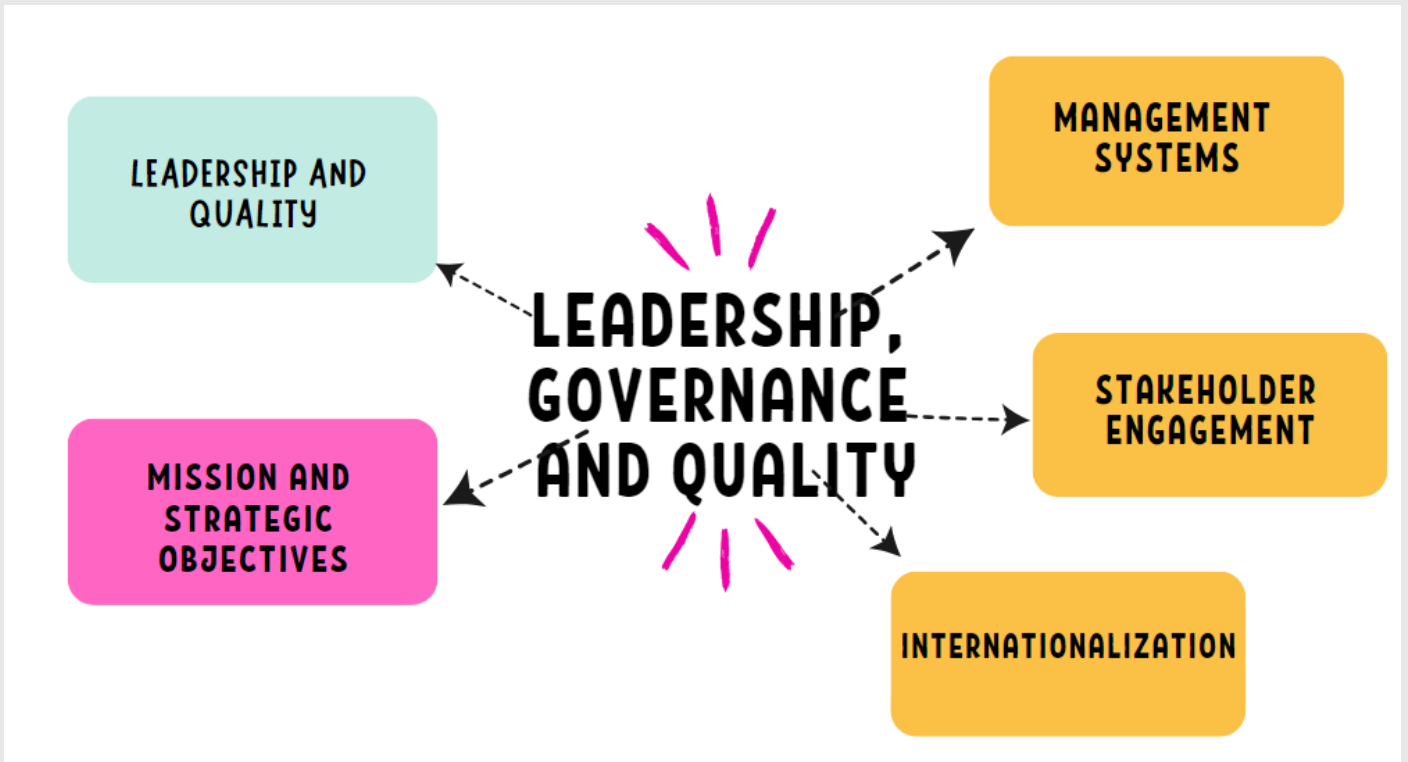

I wish you enjoyable reading.

Altınbaş University Faculty of Pharmacy students exhibited the herbarium samples they prepared within the scope of Pharmaceutical Botany course on 16-17 May 2024 at Bakırköy campus. The students collected these plant specimens by doing nature research in their hometowns. The students were taught how to turn the plant specimens they collected into herbarium material and how to identify the species in HERA, the herbarium of DÜAGEM R&D centre and Faculty of Pharmacy.

HERA, the herbarium of Altınbaş University Faculty of Pharmacy, was established in 2018. It is an international herbarium registered with the New York Botanical Garden. It is the first herbarium established by a foundation university in Turkey. Researchers working at HERA identify and store their own plants and plant specimens from other universities. There are approximately 1500 herbarium specimens in the herbarium.

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "MY CAREER JOURNEY - 'FEELINGS' EDITION" with the subtitle "With its ups & downs, work life involves a set of different feelings." The slide features a yellow wavy line representing a career path with seven points corresponding to different years. The text for each year is as follows:

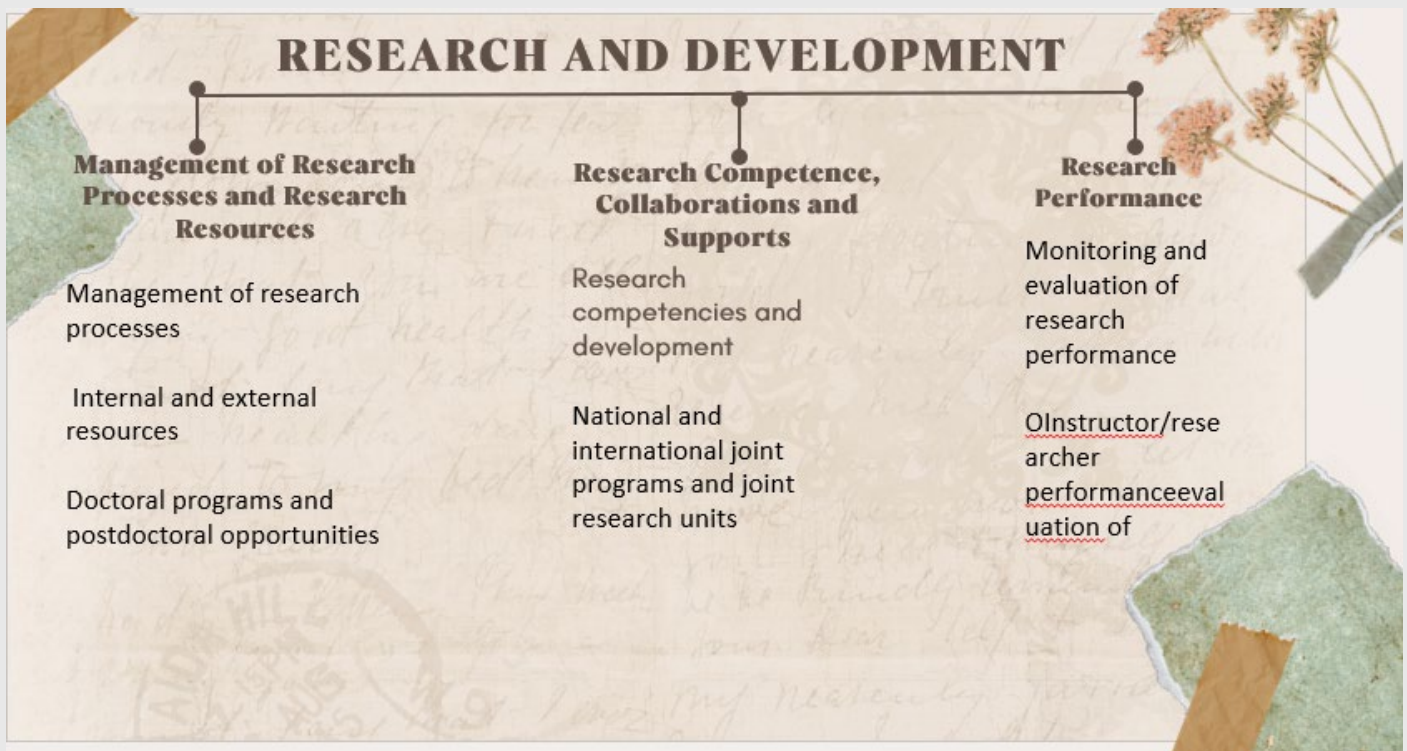

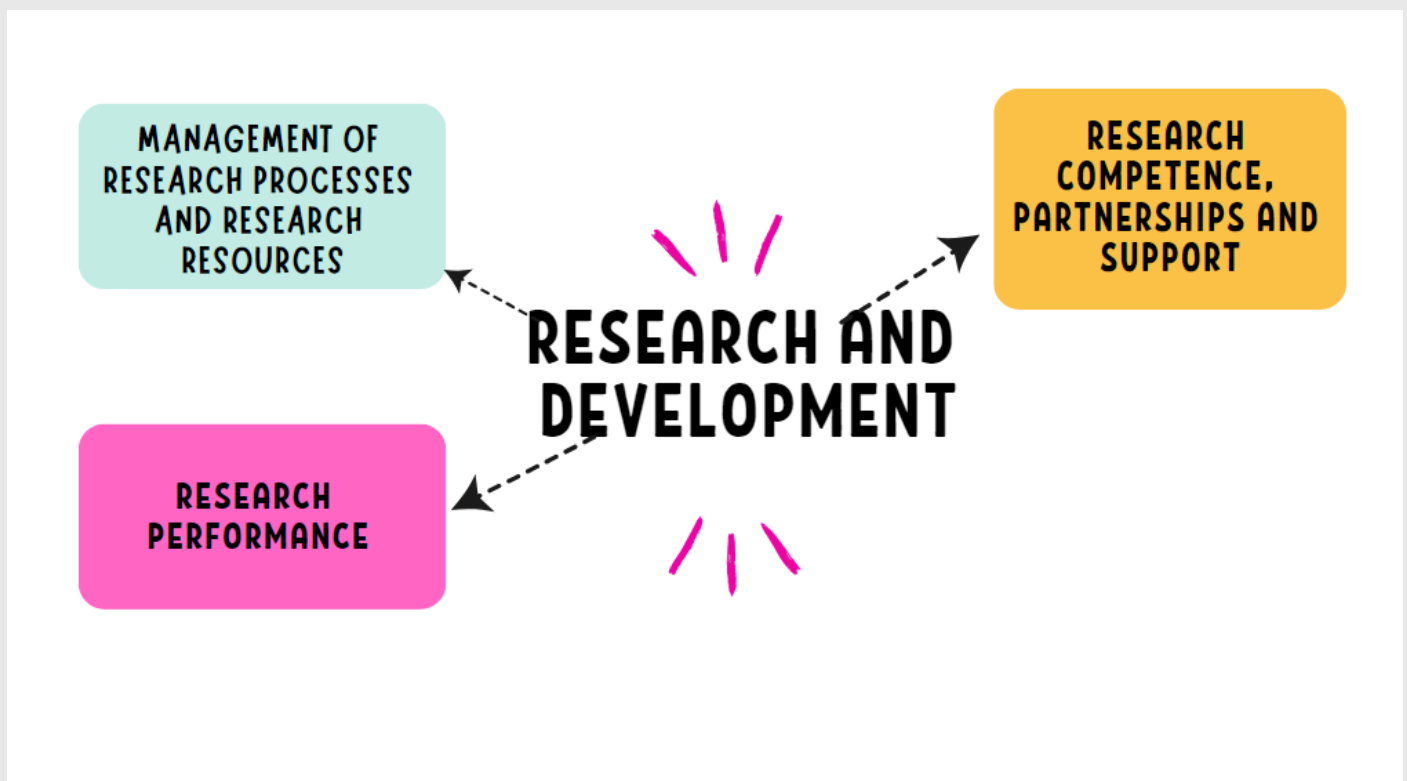

- Year 1**: I am on a new planet. Could it be the beginning of the adulthood?
- Year 2 - 4**: I am learning so many cool 'business stuff' and people are happy with my work. But do we have to work all night long?
- Year 5 - 7**: I am still learning but also I have more responsibilities. I have a lovely team, good level of work-life balance, feeling comfortable on the planet.
- Year 8**: I feel 'too' comfortable, I need to make a change or my career will be over.
- Year 9 - 10**: I got a super nice job title + high salary but I can't fit in. I need to refresh and re-evaluate my values and expectations.
- Year 11 - 13**: I am currently on a start-up planet. It seems like I enjoy doing consultant work but in a highly flexible environment with high level of ownership.

The Zoom interface includes a top toolbar with icons for chat, video, mute, and other controls. On the right side, there is a grid of video feeds for participants, with a name bar at the bottom showing "SK" and "Sude KARA...".
